

RELATIONSHIPS

- **Relationships:** there are four main types of relationship; family relationships, friendships, casual relationships and romantic relationships.

- 29th December 2015 was a very important day in terms of ensuring people in relationships were protected by law. A law was passed that made coercive behaviours illegal.
- **Body Image:** The media heavily manipulate photos of celebrities to give unrealistic body shapes and looks. This can give people poor body image if they compare themselves to them.
- **Teenage relationships:** You should only enter one of these if you are ready and have the maturity to deal with it. Only 2% of relationships in high schools end up getting married.
- **Gender Stereotyping:** From an early age, we are exposed to certain ideas in regards to what gender traits we should adhere to. Boys are often given cars, building blocks and girls can be given dolls, toys associated with nurture. This can affect future employment and mental health.
- **Family Make Up:** There are many different types of family— blended, adoptive, nuclear, extended, single parent etc.
- **Law:** there are lots of different laws surrounding family, these include property law, divorce law and adoption law.

COMMUNITY (6Rs)

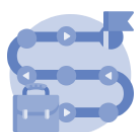

Community

- **Readiness** for high school is shown through good attitudes to homework, strong organisation, healthy work ethic, self motivation and emotional maturity.
- **Reasoning** is where you use existing knowledge to make inferences about things you don't know.
- Progress is impossible without **Reflection:** it encourages the learner to avoid questioning, 'Is it done yet?' and start questioning, 'How can I make this better?'
- **Resilience:** Formed in 1957, the MFPA (the mouth and foot painting artist) partnership is part of an international self-help association of artists (AMFPA) who paint without the use of their hands.
- To be **Resourceful**, you need to think in a different way. To think out of the box you need to be able to think laterally. That means solving problems through creativity and trialling something different.
- **Responsibility:** There are three different responses when an issue arises. People make either a snap decision, no decision or a responsible decision. Responsible decisions are based on helping yourselves and those in need.
